

# International Journal of Pavement Research and Technology

Volume 7 / Number 3

MAY 2014

## Editor's Corner

IV California Pavement Preservation Center  
*DingXin Cheng*

## Technical Papers

- 169 Evaluation of Accuracy of Weigh-In-Motion Systems in Alberta  
*Naser Farkhideh, Somayeh Nassiri, and Alireza Bayat*
- 178 Numerical Analysis of Surface Crack Propagation in Flexible Pavements Using XFEM and Cohesive Zone Model  
*Hao Wang and Jian Wang*
- 185 Toward a Holistic Performance Measurement of the Pavement Management  
*Ying-Liang Wu, Chien-Chung Li, and Ching-Tsung Hung*
- 193 Investigation of Usability of Brucite Fiber in Asphalt Mixture  
*Bowen Guan, Rui Xiong, Rui He, Shuanfa Chen, and Donghai Ding*
- 203 A Method for Assessing Costs Associated with Conversion/Reconversion of Low-Volume Roadways  
*Cade Humphries, Evan Humphries, Soon-Jae Lee, and Kyu-Dong Jeong*
- 211 Characterization of Nano Particles Released During Asphalt and Concrete Laboratory Activities  
*Somayeh Asadi, Marwa M Hassan, and Heather Dylla*

## Technical Notes

- 218 Evaluation of Polyphenylene Sulfide and Steel Fibers on Mechanical Properties of Pervious Concrete Pavement  
*Saeid Hesami, Saeid Ahmadi, Vahid Sadeghi, and Mohsen Ebrahimzadeh Hassanabadi*

## Discussions and Closures

- 223 Discussion of "A New Model on the Hydraulic Conductivity of Asphalt Mixtures" by J. Norambuena-Contreras, E. Asanza Izquierdo, D. Castro-Fresno, Manfred N. Partl and Alvaro Garcia  
*Paul J. Vardanega*
- 225 Closure to "A New Model on the Hydraulic Conductivity of Asphalt Mixtures" by J. Norambuena-Contreras, E. Asanza Izquierdo, D. Castro-Fresno, Manfred N. Partl and Alvaro Garcia  
*Jose Nomambuena-Contreras and Alvaro Garcia*
