

International Journal of Pavement Research and Technology

Volume 7 / Number 5

SEPTEMBER 2014

Editor's Corner

- IV Summary Report: IJPRT 2013
Wei-Hsing Huang and Shin-Che Huang

Technical Papers

- 305 General Guidelines to Highway Agencies to Enhance their Local Pavement Rating Systems: A Case Study of Nevada's Pavement Rating System
Mena I. Souliman, Roshan Suwal, and Elie Y. Hajj
- 317 Laboratory and Field Study on Compaction Quality of an Asphalt Pavement
Fares Beainy, Dharamveer Singh, Sesh Commuri, and Musharraf Zaman
- 324 Prediction of Compressive and Tensile Strength of Asphalt Concrete
A.A.A. Molenaar and N. Li
- 331 Evaluation on Performance Characteristics of Superpave Asphalt Mix Design under Tropical Climatic Conditions
Juraidah Ahmad, Nur Izzi Md. Yusoff, Mohd Rosli Hainin, Mohd Yusof Abd Rahman, and Mustaque Hossain
- 343 Evaluation of Low Temperature Cracking Indicators of Hot Mix Asphalt Pavement
Bagdat Teltayev
- 352 Modeling of the Asphalt Concrete to Compare Uniaxial, Hollow Cylindrical, and Indirect Tensile Test
Sanjeev Adhikari, Hainian Wang, Zhanping You, Gregory M. Odegard, and Peiwen Hao
- 361 Predicting Fatigue Damage of Asphalt Concrete Using a Cohesive Zone Model
Guanglai Jin and Xiaoming Huang
- 369 Effect of Vehicle Classification and Activity on Field Evaluation of Photocatalytic Concrete Pavements' Ability to Remove Nitrogen Oxides – A Case Study
Heather Dylla and Marwa M. Hassan

Technical Notes

- 376 Aging Characteristic of Styrene-Butadiene-Styrene Modified Asphalt under Thermal-Humidity Conditions
Jiuguang Geng, Hao Li, and Weiguang Li
