

International Journal of Pavement Research and Technology

Volume 7 / Number 6

NOVEMBER 2014

Editor's Corner

- IV Project Level Pavement Evaluation Using FWD, GPR, and Video Logging and Its Application in Pavement Rehabilitation in Indiana
Richard Y. Ji and Tommy E. Nantung

Technical Papers

- 381 Performance Evaluation of Polymer Modified Bitumens on a Heavily Trafficked Test Road
Xiaohu Lu, Safwat Said, Håkan Carlsson, Hilde Soenen, Serge Heyrman, and Per Redelius
- 389 Determining Mixing and Compaction Temperatures of Evotherm[®] Warm Mix Asphalt Using 100% Reclaimed Asphalt Pavement
Menglan Zeng, Chaofan Wu, and Jisen Zhang
- 397 Prediction of the MEPDG Asphalt Concrete Permanent Deformation Using Closed Form Solution
Mohamed El-Basyouny and Myung Goo Jeong
- 405 Evaluation of AASHTO Mechanistic-Empirical Pavement Design Guide for Designing Rigid Pavements in Louisiana
Zhong Wu, Danny X. Xiao, Zhongjie Zhang, and William H. Temple
- 417 Influence of Curing Condition on the Mechanical Properties and Durability of High Strength Concrete
Yaogang Tian, Bo Peng, Tingting Yang, Qingjun Ding, and Shuguang Hu
- 425 Stochastic Analysis of Thermal Cracking Distress of Asphalt Pavements Using the MEPDG Thermal Cracking Model
Myung Goo Jeong
- 434 Neural Networks Applications in Pavement Engineering: A Recent Survey
Halil Ceylan, Mustafa Birkan Bayrak, and Kasthurirangan Gopalakrishnan
- 445 Statistical Evaluation of Hot Mix Asphalt Resilient Modulus Using a Central Composite Design
A. Khodaii, M. Khedmati, H.F. Haghshenas, and M. Khedmati
- 451 Introducing Combination of Nano-clay and Bio-char to Enhance Asphalt Binder's Rheological and Aging Characteristics
Renaldo Walters, Ellie H. Fini, and Taher Abu-Lebdeh
- 456 Asphalt-Aggregate Adhesion Work of Natural Asphalt Modified Asphalt
Ma Feng, Fu Zhen, and Wang Lilong
