

International Journal of Pavement Research and Technology

Volume 8 / Number 6

NOVEMBER 2015

Editor's Corner

- IV IJPRT's New Era
Wei-Hsing Huang and Shin-Che Huang

Technical Papers

- 383 Maintenance and Rehabilitation Programming of the Portuguese Road Network: Development of a Cracking Prediction Model
R.J. Silva, L. Quaresma, and R. Micaelo
- 395 Hot In-Place Asphalt Recycling for Small Repairs on Airfields in Remote Settings
William D. Carruth and Mariely Mejías-Santiago
- 403 Analysis of Loading Frequency in Flexible Pavement Using Fast Fourier Transform
Mohammad Hossein Shafiee, Arian Asefzadeh, Leila Hashemian, and Alireza Bayat
- 410 Rheological Performance of Asphalt Binders Under Different Creep and Recovery Periods in MSCR Test
Aniket V. Kataware and Dharamveer Singh
- 419 Influence of Asphalt-Binder Source on CAM Mix Rutting and Cracking Performance: A Laboratory Case Study
Xiaodi Hu and Lubinda F. Walubita
- 426 Mix Design and Moisture Susceptibility of Asphalt Concrete Mixes Containing Waste Catalyst from Oil Refineries
K. Al-Shamsi, M. Baawain, K. Aljabri, R. Taha, and Z. Al-kamyani
- 433 Sensitivity Analysis of Flexible Pavement Sections Using Mechanistic-Empirical Pavement Design Guide
Pranshoo Solanki and Banibandana Ray

Technical Note

- 440 Feasibility Study of the Potential Use of Drill Cuttings in Concrete
Somayeh Asadi, Ehsan Mostavi, and Elumeze Ugochukwu
